SHARING AND FURTHERING THE ART OF SEWING

NSW Spring 2019 Industry Day

Saturday, 7 September, 2019

Kingsgrove RSL Club Ltd, 8 Brocklehurst Lane, Kingsgrove NSW 2208

The Spring 2019 NSW Industry Day will start with a presentation by The Cavalcade of History and Fashion. Following this is a choice of 4 workshops for each of the morning and afternoon sessions.

The Cavalcade of History and Fashion “The Art of the Cut: 1930s Evening Gowns”

The 1930s was a decade of glamorous and elegant evening wear in which classical draping, the bias cut and soft lustrous fabrics accentuated the body contours and silhouette. Fashion designers dressed Hollywood legends in romantic concoctions.

The Cavalcade’s collection of 1930s gowns and accessories will similarly delight audiences as history comes alive through the stories of the women who wore these gowns.

Throughout the presentation items are carried amongst the audience allowing a closer look at these treasures from the collection.

The Cavalcade of History and Fashion is an organisation with a collection of original historic gowns and accessories with provenance, dating from the 1700s preserving Australia’s social and fashion history.

WORKSHOP SESSIONS:

1. Lorraine Jenkins – Toile Fittings

Bring along a project toile and get some expert advice. Doing a toile fitting is a good idea to see where adjustments need to be made on a live body. Bring the pattern and after the fit Lorraine can show how to make the adjustments. 1 garment per person. Lorraine will email a requirements list.

The afternoon workshop is now full. There are 2 places remaining for the morning session.

Lorraine will also have the Fitting books for sale, along with the stabilizing tapes, interfacings and pressing tools. CASH ONLY

2. Anita McAdam – Studio Faro

An ASG Industry Partner, Anita has been involved, one way or another, in the fashion industry for over 35 years. Join her for some confidence-boosting, instructive guidance in making the best alterations to create well-fitted trousers and dresses. Are you tired of baggy seats and bumpy thighs and wonder what to do with all that excess fabric at the back of your dress just above the waist? In these 1-hour pattern-fitting workshops, Anita will demonstrate how to make changes to commercial patterns to improve overall fit and balance.

All the pattern alterations discussed will be detailed in a worksheet that students will receive to take home at the end of the class.

3. Dearne Natoli & Lyn Goodrick – Booby Traps

Lynn runs the General Sewing classes and specialised workshops at Booby Traps, and is the primary pattern maker. Lynn and Dee have worked closely together to expand the fabulous Booby Traps pattern range. Since taking over the business from Jill 9 years ago, Dee, with the vital expertise of Lynn, has launched over 40 lingerie and swimwear patterns with more to come! Come and learn more about bra and underwear sewing. Time restrictions mean you won't go home with a bra, but you will go home with the enthusiasm for making one.

There will be kits available for sale, along with the Booby Traps Bra making DVD and video, bra fabrics, including Elastane and Powernet, folding elastic, facing elastics, bra strapping, underwires, moulded cups, laces, fabrics, patterns, needles and other haberdashery items.

4. Slow Sewing – Decorate a Coathanger cover or sew a pattern weight ... or both.

Take some time to immerse yourself in your creative process, enjoying the process, rather than anticipating a completed project.

Member Fashion Parades

Members to model (or have someone model, or on hangers)

*We want to see and hear about your favourite outfits or accessories you've made!
The alterations, highlights and challenges, but most importantly, the fun!*

Sew Sister

If you don't have someone to assist, the time is right to have a duplicate of yourself made, a Sew Sister! Hollie, from Tools by Hollie, couldn't make it easier and after making a 3D scan, produces your personalised Sew Sister; a 3D scan of your body carved into foam for an exact replica. Sewing is faster, will fit like a latex glove and more importantly, no wasted unfinished objects.

Hollie will be available to answer questions about Sew Sister, and to make a scan for you. See the February 2019 ASG Newsletter for an endorsement of this product.
