This is your workshop so make it special. We look forward to seeing your challenge.

Tutor profile: Kay Platts

I enjoy helping others enhance their sewing skills and pass on my knowledge when asked. After spending many moons lecturing at TAFE in Fashion and Textiles, specialising in garment construction, pattern making, teaching in other specialised areas in the Diploma of Fashion.

On retirement I was asked to work with the Dept of Corrections part time helping women gain skills in making garments and other sewing projects. I enjoyed this very much for eight years.

When asked by Maureen Collibee to do some demonstrations for the Australian Sewing Guild I was delighted to find a group of enthusiastic, like minded ladies who enjoyed learning new techniques and who were willing to share knowledge. Since joining the Guild I have made many new friends, those who don't scoff at my "Stash" who understand the passion and need, not want, to collect FABRIC.

Requirements for Kay's help in your two day sewing school:

Ladies, if you need to alter any pattern pieces you are encouraged to bring pattern paper and rulers, a roll of grease proof paper, 2b or HB pencils, sticky tape, sharpener, eraser, tape measure, note book to record your alterations and a 30cm plastic ruler.
