

You're invited to ASG's online event

AUTUMN SEWING CELEBRATION

Purple Sewing Cloud - Samantha

Sewing with disabilities/chronic health

Samantha will give insights into sewing with disabilities and/or chronic health conditions, and some of the tools and techniques she uses. She will speak about her collaboration with sewing machine manufacturers to make their products more accessible. Disabilities and chronic illness don't affect everyone, but a large percentage of people are affected and the information you glean from this presentation will be great to pass on to friends or relatives, even if they don't have any disabilities.

Samantha lives in Gateshead, UK and has experienced several difficult health issues, culminating in a serious brain virus. After a long time in hospital, she found herself at home on her own trying to recover and get back to being normal. She had a lot of problems with speech, co-ordination, concentration and experiencing seizures. She was taught to sew when young and when she started sewing again after her hospitalisation, it helped improve the health issues and has kept her sane as she battles constant health problems and hospital appointments.
